## INDOOR CRAFT STAND APPLICATION FORM - SATURDAY 14th September 2024

## RISK ASSESSMENT

In the interests of safety, the Society requires you to complete the Risk Assessment form below detailing any potential hazards (including fire) which may arise during your visit to the show ground, and the controls you will have in place to minimise any risk.

All forms must be signed by the person who will oversee your area during the pre-show build up, show day and post-show dismantling time.

All exhibitors are responsible for their staff and/or contractors and must make sure they are competent and qualified to carry out any works while at the Show ground.

Bookings cannot be confirmed until the completed Risk Assessment form has been returned to the show secretary
